

Rockbreaker System Grease Systems

Lubrication: AUTO vs MANUAL

Automated Lubrication:	Manual Lubrication:
Constant lubrication	Inconsistent lubrication
Lube while machine running	Can't lubricate while running
No contamination	Contamination
Extended bearing life	Early bearing failure
Less downtime	Labor intensive
Quick payback	

Rockbreaker System Grease Points:

ROCKBREAKER GREASE POINTS

1. L&R Swing Cylinders: Base End
2. L&R Swing Cylinders: Rod End
3. Boom Swing: Top Pin
4. Boom Swing: Bottom Pin
5. Boom: Pivot Pin
6. Hoist Cylinder: Base End
7. Hoist Cylinder: Rod End
8. Dipperstick Cylinder: Base End
9. Dipperstick Cylinder: Rod End
10. Boom: Joint Pin
11. Tilt Cylinder: Base End
12. Tilt Cylinder: Rod End
13. Outer Boom: Nose Pin
14. Breaker
