Telescope Spraying Arm

AL-302.1

For mining and small tunnels
Modular concept
Air, electric, diesel driven
Simple mounting onto carriers
The telescope spraying arm AL-302 has been designed specially for mines, small galleries and excavations. Owing to its simple and rigid construction it is most suitable for mounting onto different carriers.

Technical and design modifications remain reserved at all times. Technical properties have been achieved under theoretical and normal conditions. Please consult the respective machine manual for all matters related to operations and maintenance.
